

JOB OPPORTUNITY

Our mission is to ensure long-term business relationships through customer satisfaction.

United Engineering Solutions GmbH (UES) is a growing and internationally operating maritime engineering company in the heavy lift shipping segment. UES offers a comprehensive service for shipping heavy lift, project, and breakbulk cargo as well as consultancy in nautical matters. We design steel structures for heavy cargo transportation, traverses and lifting beams, hatch covers, crane foundations, and jibs. UES develops operation manuals, method statements, lifting and stowage plans along with the calculation of se-cure lashing, on-site finalization, and supervision of projects. We provide innovative solutions for challenging projects. Get to know us at www.united.engineering

The UES team consists of experienced Captains, Nautical Officers, Cargo Superintendents, and Naval Architects. UES exclusively manages the UNITED GROUP's fleet of more than 20 MPP heavy lift vessels and 3 deck carriers. UES cooperates closely with our partner companies United Heavy Lift and United Wind Logistics.

Junior Structural Engineer (F/M/D)

YOUR MAIN RESPONSIBILITIES

- Performing structural analysis of steel structures including ultimate strength as well as fatigue
- Finite element calculations of 2D plated structures and 3D volume models
- Design of steel structures such as grillages and cradles for heavy cargo transports
- Design of sea fastening concepts in line with class and customer requirements
- Issue calculation reports fit for approval

YOUR QUALIFICATIONS

- Degree in Mechanical Engineering / Naval Architecture or equivalent
- A finished apprenticeship in a metal working profession is an advantage
- Proficient in 3D design of steel structures and FE calculations (for example Inventor, RFEM and Ansys Mechanical)
- Fluent English (written and spoken) is required
- Good communicative skills and team spirit
- 2-5 years working experience preferable in the maritime/heavy lift industry
- Experience with DNVGL-ST-N001 preferred

WE EXPECT

- Interest in maritime industry and their challenges
- Be able to work independently and execute projects from start to finish.
- Flexibility

WE OFFER

- Attractive salary package according to qualifications (incl. company pension scheme)
- Challenging projects
- Flexible working hours and home office option
- Fringe benefits such as contribution to public transportation and company health care
